

The image shows an energy label for a Gorenje WHC63CLI refrigerator. At the top left is the European Union flag. To its right is the word "ENERG" in large letters, with "енергия · ενεργεια" below it. Further right are four small circles containing the letters Y, UA, IE, and IA. Below this header, the brand name "gorenje" is written in a bold, lowercase font, followed by the model number "WHC63CLI".

The central part of the label features a vertical scale of energy efficiency classes, represented by colored arrows pointing to the right. From top to bottom, the classes are A+++ (dark green), A++ (medium green), A+ (light green), A (yellow), B (orange), C (red-orange), and D (red). A black arrow points to the 'B' class, indicating the refrigerator's energy efficiency.

Below the scale, a white box with a blue border contains the number "60.2" in large font, with "kWh/annum" written below it. This represents the refrigerator's annual energy consumption.

At the bottom of the label, there are four icons in rounded rectangular boxes. From left to right: a fan icon with "ABCDEF" below it; a lightbulb icon with "ABCDEF" below it; a water droplet icon with "ABCDEFG" below it; and a speaker icon with "70 db" below it.

In the bottom left corner, the text "65/2014" is visible. On the right side, there is a vertical number "736201".
